**Easter Is Coming!** ,2019-02-01 Mommy and her little ones are settling in for story time, and this time it's the biblical story of Easter that she's telling. As the youngsters hear God's tale unfold with its sometimes somber notes about sin and death, they are softly and continually reminded, "But Easter is coming!" By the end of the book, the anticipation has built and the children can celebrate the ending and the glory of Easter Sunday. In a time when children's Easter excitement often focuses on only egg hunts and candy, this book offers a different—and true—reason for joy and expectancy. It's designed to be read and reread on the days leading up to Easter, telling the greatest story and building a sense of anticipation and celebration in little hearts. Go to [bhkids.com](http://bhkids.com) to find this book's Parent Connection, an easy tool to help moms and dads (or anyone else who loves kids) discuss the book's message with their child. We're all about connecting parents and kids to each other and to God's Word.

**Post-Digital Print** Alessandro Ludovico,2019-04-23 Digital technology is now a normal part of everyday life. The mutation of music and film into bits and bytes, downloads and streams is now taken for granted. For the world of book and magazine publishing however, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of Neural, a magazine for critical digital culture and media arts. For more than 20 years now, he has been working at the cutting edge (and the outer fringes) of both print publishing and politically engaged digital art.

**A Different Democracy** Steven L. Taylor,Matthew S. Shugart,Arend Lijphart,Bernard Grofman,2014-10-28 Four distinguished scholars in political science analyze American democracy from a comparative point of view, exploring how the U.S. political system differs from that of thirty other democracies and what those differences ultimately mean for democratic performance. This essential text approaches the following institutions from a political engineering point of view: constitutions, electoral systems, and political parties, as well as legislative, executive, and judicial power. The text looks at

democracies from around the world over a two-decade time frame. The result is not only a fresh view of the much-discussed theme of American exceptionalism but also an innovative approach to comparative politics that treats the United States as but one case among many. An ideal textbook for both American and comparative politics courses.

Proust and the Squid Maryanne Wolf,2017-08-01 “Wolf restores our awe of the human brain—its adaptability, its creativity, and its ability to connect with other minds through a procession of silly squiggles.” — San Francisco Chronicle How do people learn to read and write—and how has the development of these skills transformed the brain and the world itself ? Neuropsychologist and child development expert Maryann Wolf answers these questions in this ambitious and provocative book that chronicles the remarkable journey of written language not only throughout our evolution but also over the course of a single child’s life, showing why a growing percentage have difficulty mastering these abilities. With fascinating down-to-earth examples and lively personal anecdotes, Wolf asserts that the brain that examined the tiny clay tablets of the Sumerians is a very different brain from the one that is immersed in today’s technology-driven literacy, in which visual images on the screen are paving the way for a reduced need for written language—with potentially profound consequences for our future.

The Lost Library Dan Rabinowitz,2018-12-04 The Strashun Library was among the most important Jewish public institutions in Vilna, and indeed in Eastern Europe, prior to its destruction during World War II. Mattityahu Strashun, descended from a long and distinguished line of rabbis, bequeathed his extensive personal library of 5,753 volumes to the Vilna Jewish community on his death in 1885, with instructions that it remain open to all. In the summer of 1941, the Nazis came to Vilna, plundered the library, and shipped many of its books to Germany for deposition at a future Institute for Research into the Jewish Question. When the war ended, the recovery effort began. Against all odds, a number of the greatest treasures of the library could be traced. However, owing to its diverse holdings and its many prewar patrons, a custody battle erupted over the remaining holdings. Who should be heir to the Strashun Library? This book tells the story of the Strashun Library from its creation through the contentious battle for ownership following the war until present day. Pursuant to a settlement in 1958, the remnants of the greatest prewar library in Europe were split between two major institutions: the secular YIVO in the United States and the rabbinic library of Hechal Shlomo in Israel, a compromise that

struck at the heart of the library's original unifying mission.

**Tamerlane and Other Poems** Edgar Allan Poe,A. Bostonian,2010-03-16 Tamerlane and Other Poems is the first published work by American writer Edgar Allan Poe. The short collection of poems was first published in 1827. Today, it is believed only 12 of approximately 50 copies of the collection still exist. The poems were largely inspired by Lord Byron, including the long title poem Tamerlane, which depicts a historical conqueror who laments the loss of his first romance. Like much of Poe's future work, the poems in Tamerlane and Other Poems include themes of love, death, and pride.

**A Duty of Care** Peter Hennessy,2022-03-03 One of our most celebrated historians shows how we can use the lessons of the past to build a new post-covid society in Britain The 'duty of care' which the state owes to its citizens is a phrase much

used, but what has it actually meant in Britain historically? And what should it mean in the future, once the immediate Covid crisis has passed? In *A Duty of Care*, Peter Hennessy divides post-war British history into BC (before covid) and AC (after covid). He looks back to Sir William Beveridge's classic identification of the 'five giants' against which society had to battle - want, disease, ignorance, squalor and idleness - and laid the foundations for the modern welfare state in his wartime report. He examines the steady assault on the giants by successive post-war governments and asks what the comparable giants are now. He lays out the 'road to 2045' with 'a new Beveridge' to build a consensus for post-covid Britain with the ambition and on the scale that was achieved by the first.

**The Future of Journalism** Bob Franklin, 2013-09-13 The future of journalism is hotly contested and highly uncertain reflecting developments in media technologies, shifting business strategies for online news, changing media organisational and regulatory structures, the fragmentation of audiences and a growing public concern about some aspects of tabloid journalism practices and reporting, as well as broader political, sociological and cultural changes. These developments have combined to impoverish the flow of existing revenues available to fund journalism, impact radically on traditional journalism professional practices, while simultaneously generating an increasingly frenzied search for sustainable and equivalent funding - and from a wide range of sources - to nurture and deliver quality journalism in the future. This book brings together journalists and distinguished academic specialists from around the globe to present the findings from their research and to discuss the future of journalism, the shifting quality of its products, its wide ranging sources of finance, as well as the economic and democratic consequences of the significant changes confronting Journalism. *The Future of Journalism* details the challenges facing the press in contemporary societies and provides essential reading for everyone interested in the role of journalism in shaping and sustaining literate, civil and democratic societies. This book consists of special issues from *Journalism Studies* and *Journalism Practice*.

**A Season in Hell and the Illuminations** Arthur Rimbaud, 1974 Although he abandoned poetry before he was twenty-one years old, and wrote for only five or six years in all, Arthur Rimbaud has had an extraordinary influence on modern poetry. His work helped inspire poetic Symbolism, Dadaism, and Surrealism. Rimbaud dreamed of re-creating life through his words. Not content merely to describe the world, he longed to reorder it through his revolutionary poetry. He rebelled against all forms of hypocrisy, as well as against conventional concepts of love, morality, religion, and art. He even dreamed of liberating women from endless servitude. Written a century ago, *A Season in Hell* and *The Illuminations* read like the works of an avant-garde poet of today. In her Introduction dealing with Rimbaud's life and work, Enid Rhodes Peschel

discusses his concept of the voyant, the poet-visionary he dreamed of becoming through a reasoned deranging of all his senses. *A Season in Hell*, which combines autobiography with self-appraisal, vision and hallucination, reflects Rimbaud's tortures in trying to be a voyant. The forty-two poems of *The Illuminations*, kaleidoscopic evocations of a universe in continual evolution, are further evidence of his attempts to reach this transcendent state. Enid Rhodes Peschel has succeeded in not only translating these works but in recreating them. Eye, ear, mind, and heart have all been engaged in her effort to capture the tone and rhythm of Rimbaud's language as well as the quality of his thought. Book jacket.

*Accelerando* Charles Stross, 2005-07-05 The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...
