Shortlisted Hannah Brenner Johnson, Renee Knake Jefferson, 2022-02-15 Winner, Next Generation Indie Book Awards - Women's Nonfiction Best Book of 2020, National Law Journal The inspiring and previously untold history of the women considered—but not selected—for the US Supreme Court In 1981, Sandra Day O'Connor became the first female justice on the United States Supreme Court after centuries of male appointments, a watershed moment in the long struggle for gender equality. Yet few know about the remarkable women considered in the decades before her triumph. *Shortlisted* tells the overlooked stories of nine extraordinary women—a cohort large enough to seat the entire Supreme Court—who appeared on presidential lists dating back to the 1930s. Florence Allen, the first female judge on the highest court in Ohio, was named repeatedly in those early years. Eight more followed, including Amalya Kearse, a federal appellate judge who was the first African American woman viewed as a potential Supreme Court nominee. Award-winning scholars Renee Knake Jefferson and Hannah Brenner Johnson cleverly weave together long-forgotten materials from presidential libraries and private archives to reveal the professional and personal lives of these accomplished women. In addition to filling a notable historical gap, the book exposes the tragedy of the shortlist. Listing and bypassing qualified female candidates creates a false appearance of diversity that preserves the status quo, a fate all too familiar for women, especially minorities. *Shortlisted* offers a roadmap to combat enduring bias and discrimination. It is a must-read for those seeking positions of power as well as for the powerful who select them in the legal profession and beyond.

Playing with Fire John W. Sutherlin, Daniel Elliot Gonzalez, 2021-04-15 *Playing with Fire* chronicles the ongoing struggle facing Louisiana families trying to live and work against the backdrop of corrupt politicians and corporate greed. However,

the story presented here is relevant wherever low-income, disenfranchised people are not included in decisions about their health and environment. This book examines the tale of Marine Shale Processors, the world's largest hazardous waste company, and the women who fought to protect their community and their children. The lesson here is that a dedicated group of people fighting for what is right can win and it serves as an example for any community that wants to determine what their own environmental future. Playing with Fire is a well-documented account that provides lessons for communities, government agencies, and corporations. It dispels the narrative that low-income communities must settle for jobs at the expense of clean air and water and politicians and demonstrates that corporations that further trample on the rights of people will ultimately pay the price.

The Stepsisters Susan Mallery,2021-05-25 #1 New York Times bestselling author Susan Mallery pens a love story of a different sort...a heartfelt tale of friendship between two women who used to be sisters. Once upon a time, when her dad married Sage's mom, Daisy was thrilled to get a bright and shiny new sister. But Sage was beautiful and popular, everything Daisy was not, and she made sure Daisy knew it. Sage didn't have Daisy's smarts—she had to go back a grade to enroll in the fancy rich-kid school. So she used her popularity as a weapon, putting Daisy down to elevate herself. After the divorce, the stepsisters' rivalry continued until the final, improbable straw: Daisy married Sage's first love, and Sage fled California. Eighteen years, two kids and one troubled marriage later, Daisy never expects—or wants—to see Sage again. But when the little sister they have in common needs them both, they put aside their differences to care for Cassidy. As long-buried truths are revealed, no one is more surprised than they when friendship blossoms. Their fragile truce is threatened by one careless act that could have devastating consequences. They could turn their backs on each other again...or they could learn to forgive once and for all and finally become true sisters of the heart. Don't miss *The Happiness Plan*, a new novel coming from #1 New York Times bestselling author Susan Mallery where three women experience hope, heartache, and the power of friendship as they search for true happiness!

Coral Reefs in the Anthropocene Charles Birkeland,2015-11-03 This volume investigates the effects of human activities on coral reefs, which provide important life-supporting systems to surrounding natural and human communities. It examines the self-reinforcing ecological, economic and technological mechanisms that degrade coral reef ecosystems around the world. Topics include reefs and limestones in Earth history; the interactions between corals and their symbiotic algae; diseases of coral reef organisms; the complex triangle between reef fishes, seaweeds and corals; coral disturbance and recovery in a changing world. In addition, the authors take key recent advances in DNA studies into account which provides new insights into the population biology, patterns of species distributions, recent evolution and vulnerabilities to environmental stresses. These DNA analyses also provide new understandings of the limitations of coral responses and scales of management necessary to sustain coral reefs in their present states. Coral reefs have been essential sources of food, income and resources to humans for millennia. This book details the delicate balance that exists within these ecosystems at all scales, from geologic

time to cellular interactions and explores how recent global and local changes influence this relationship. It will serve as an indispensable resource for all those interested in learning how human activities have affected this vital ecosystem around the world.
