Competing Spectacles Tony Reinke,2019-04-17 We live in a world full of shiny distractions, faced with an onslaught of viral media constantly competing for our attention and demanding our affections. These ever-present visual “spectacles” can quickly erode our hearts, making it more difficult than ever to walk through life actively treasuring that which is most important and yet invisible: Jesus Christ. In a journalistic style, Tony Reinke shows us just how distracting these spectacles in our lives have become and calls us to ask critical questions about what we’re focusing on. The book offers us practical steps to redirect our gaze away from the addictive eye candy of the world and onto the Ultimate Spectacle—leading to the joy and rest our souls crave.

Chowan Beach E. Frank Stephenson,2006 In 1928, Eli Reid purchased 400 acres of picturesque property on the banks of the Chowan River in Hertford County, North Carolina. Soon after he acquired the land, Reid began turning the area into a Segregation-era resort for African Americans, and Chowan Beach was born. As the resort began to take shape in the late 1920s, it was clear that something special had been started. Wide sandy beaches were built, and construction was immediately started on guest cottages, bathhouses, a dance hall, photo studio, restaurant, picnic area and magnificent German-made carousel. Chowan Beach was an immediate success, and throngs of African Americans began to stream in from across North Carolina and the East Coast to relax and enjoy the atmosphere and spectacular views--an oasis of fun in a social desert of limited opportunities and unfair treatment. The water was cool and refreshing, the crowds were friendly, and the music was hot, as the beach was a popular stop for musicians touring on the Chitlin Circuit, including B.B. King, James Brown, Sam Cooke and The Drifters. In this nostalgic new book, author Frank Stephenson brings back the glory days of Chowan Beach with an array of vintage photographs and a brief history of the area. Come along as Stephenson revisits the past of this beloved beach and offers a reminder of what it meant to generations of African American visitors.

You Can't Fall off the Floor Ben Watford,Dudley E. Flood,2009-11-02 Can anything good come out of Winton? The King

James Version of the Holy Bible relates an episode in which Jesus Christ was choosing men to become Disciples. Phillip was sent to invite Nathanael to join the other followers. When Phillip informed Nathanael that Jesus of Nazareth was indeed the Messiah, Nathanael asked, Can anything good come out of Nazareth? Nazareth, like Winton, was not a place in which one would expect to find greatness. The negative label that too often has been placed on small, rural towns and their people can become a self-fulfilling prophesy. Unless an individual has a healthy view of self, he or she may live down to the level of popular perception. I spent a fair amount of my youth living with the socially assigned designation of country kid. The inference of this distinction was that I lacked many of the virtues that were automatically attributed to city kids. That may have been true, but the net result was that it motivated me to prove that something good could come out of Winton. As Phillip did to Nathanael, in this book, we invite all to come and see.

Carolina Genesis Scott Withrow, 2010 Some Americans pretend that a watertight line separates the races. But most know that millions of mixed-heritage families crossed from one race to another over the past four centuries. Every essay in this collection tells such a tale. Each speaks with a different style and to different interests. But taken together, the seven articles paint a portrait, unsurpassed in the literature, of migrations, challenges, and triumphs over racial obstacles. Stacy Webb tells of families of mixed ancestry who pioneered westward paths from the Carolinas into the colonial wilderness, paths now known as Cumberland Road, Natchez Trace, Three-Chopped Way, and others. They migrated, not in search of wealth or exploration, but to escape the injustice of America's hardening racial barrier. Govinda Sanyal's astonishing research uses mtDNA markers to trace a single female lineage that winds its way through prehistoric Yemen, North Africa, Moorish Spain, the Sephardic diaspora, colonial Mexico, and finally escapes the Inquisition by assimilating into a Native American tribe, ending up in South Carolina. He fleshes out the DNA thread with documented genealogy, so we get to know their names, their lives, their struggles. Cyndie Goins Hoelscher focuses on a specific family that scattered from the Carolinas. One branch fled to Texas, becoming friends with Sam Houston and participating in the founding of that state. Other bands fought in the war of 1812, or migrated to Florida or the Gulf coast. Nowadays, Goins descendants can be found in nearly every state and are of nearly every race. Scott Withrow (the collection's editor) concentrates on the saga of one individual of mixed ancestry. Joseph Willis was born into a community of color in South Carolina. He migrated to Louisiana, was accepted as a White man, founded one of the first churches in the area, and became one of the region's best-loved and most fondly remembered Christian ministers. S. Pony Hill recounts the historic struggles of South Carolina's Cheraw tribe, in a reprint of Chapter 5 of his book, *Strangers in Their Own Land*. Marvin Jones tells the history of the Winton Triangle, a section of North Carolina populated by successful families of mixed ancestry from colonial times until the mid-20th century. They fought for the Union, founded schools, built businesses, and thrived through adversity until the civil rights movement of 1955-65 ended legal segregation. K. Paul Johnson traces the history of North Carolina's antebellum Quakers. The once-strong community

dissolved as it grew morally opposed to slavery. Those who stayed true to their faith migrated north. Those who remained slaveowners left the church. The worst stress was the Nat Turner event. Its aftermath helped turn the previously permeable color line into the harsh endogamous barrier that exists today.

Haunted Media Jeffrey Sconce, 2000 Examines the repeated association of new electronic media with spiritual phenomena from the telegraph in the late 19th century to television.

A Prophet Like Moses Jeffrey Stackert, 2014 Jeffrey Stackert addresses two of the oldest and most persistent problems in biblical studies: the relationship between prophecy and law in the Hebrew Bible and the utility of the Documentary Hypothesis for understanding Israelite religion. These topics have in many ways dominated pentateuchal studies and the investigation of Israelite religion since the nineteenth century, culminating in Julius Wellhausen's influential Prolegomena to the History of Ancient Israel. Setting his inquiry against this backdrop while drawing on and extending recent developments in pentateuchal theory, Stackert tackles the subject through an investigation of the different presentations of Mosaic prophecy in the four Torah sources. His book shows that these texts contain a rich and longstanding debate over prophecy, its relation to law, and its place in Israelite religion. With this argument, *A Prophet Like Moses* demonstrates a new role for the Documentary Hypothesis in discussions of Israelite religion. It also provides an opportunity for critical reflection on the history of the field of biblical studies. Stackert concludes with an argument for the importance of situating biblical studies and the study of ancient Israelite religion within the larger field of religious studies rather than treating them solely or even primarily as theological disciplines.

The Information Bomb Paul Virilio, 2020-05-05 Civilization or the militarization of science? With this typically hyperbolic and provocative question as a starting point, Paul Virilio explores the dominion of techno-science, cyberwar and the new information technologies over our lives ... and deaths. After the era of the atomic bomb, Virilio posits an era of genetic and information bombs which replace the apocalyptic bang of nuclear death with the whimper of a subliminally reinforced eugenics. We are entering the age of euthanasia. These exhilarating bulletins from the information war extend the range of Virilio's work. *The Information Bomb* spans everything from Fukuyama to Larry Flynt, the Sensation exhibition of New British Art to space travel, all seen through the optic of Virilio's trenchant and committed theoretical position.

The New Education Cathy N. Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the past -- and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925. It was in those decades that the nation's new universities created grades and departments, majors and minors, all in an attempt to prepare young people for a world transformed by the telegraph and the Model T. As Cathy N. Davidson argues in *The New Education*, this approach to education is wholly unsuited to the era of the gig economy. From the Ivy League to community colleges, she introduces us to innovators who are remaking college for

our own time by emphasizing student-centered learning that values creativity in the face of change above all. The New Education ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come.

The Future of Thinking Cathy N. Davidson, David Theo Goldberg, 2010-01-15 How traditional learning institutions can become as innovative, flexible, robust, and collaborative as the best social networking sites. Over the past two decades, the way we learn has changed dramatically. We have new sources of information and new ways to exchange and to interact with information. But our schools and the way we teach have remained largely the same for years, even centuries. What happens to traditional educational institutions when learning also takes place on a vast range of Internet sites, from Pokemon Web pages to Wikipedia? This report investigates how traditional learning institutions can become as innovative, flexible, robust, and collaborative as the best social networking sites. The authors propose an alternative definition of "institution" as a "mobilizing network"—emphasizing its flexibility, the permeability of its boundaries, its interactive productivity, and its potential as a catalyst for change—and explore the implications for higher education. The *Future of Thinking* reports on innovative, virtual institutions. It also uses the idea of a virtual institution both as part of its subject matter and as part of its process: the first draft of the book was hosted on a Web site for collaborative feedback and writing. The authors use this experiment in participatory writing as a test case for virtual institutions, learning institutions, and a new form of collaborative authorship. The finished version is still posted and open for comment. This book is the full-length report of the project, which was summarized in an earlier MacArthur volume, *The Future of Learning Institutions in a Digital Age*.

Infectious Disease Modelling Research Progress Jean Michel Tchenche, Christinah Chiyaka, 2009 This book concentrates on the epidemiology of corruption and disease transmission as a saturable interaction as well as case studies of

infectious diseases of global public health concern, namely drug resistant TB, influenza and malaria. It gives the students and researchers in related areas ample information on disease epidemiology and transmission dynamics, and well-elaborated mathematics useful in analysing the proposed models. Great emphasis is not only placed on describing the models, but also on analysing and bringing out results of great epidemiological meaning for public health control and planning.

Newton on the Christian Life Tony Reinke,2015-05-31 John Newton is best known as the slave trader turned hymn writer who penned the most popular English hymn in history: "Amazing Grace." However, many Christians are less familiar with the decades he spent in relative obscurity, laboring as a "spiritual doctor" while pastoring small parishes in England. In the latest addition to Crossway's growing Theologians on the Christian Life series, Tony Reinke introduces modern readers to Newton's pastoral wisdom by leading them through the many sermons, hymns, and—most importantly—letters that he wrote over the course of his life. Considered by many to be one of the greatest letter writers of all time, Newton has valuable insights to offer modern Christians, especially when it comes to fusing together sound doctrine, lived experience, and godly practice. Part of the Theologians on the Christian Life series.

Now they've assembled their stories in print, with the hope that their experiences will continue to entertain and illuminate.

Now You See It Cathy N. Davidson, 2011-08-18 A digital innovator shows how we can thrive in the new technological age. When Cathy Davidson and Duke University gave free iPods to the freshman class in 2003, critics said they were wasting their money. Yet when students in practically every discipline invented academic uses for their music players, suddenly the idea could be seen in a new light-as an innovative way to turn learning on its head. This radical experiment is at the heart of Davidson's inspiring new book. Using cutting-edge research on the brain, she shows how attention blindness has produced one of our society's greatest challenges: while we've all acknowledged the great changes of the digital age, most of us still toil in schools and workplaces designed for the last century. Davidson introduces us to visionaries whose groundbreaking ideas-from schools with curriculums built around video games to companies that train workers using virtual environments-will open the doors to new ways of working and learning. A lively hybrid of Thomas Friedman and Norman Doidge, *Now You See It* is a refreshingly optimistic argument for a bold embrace of our connected, collaborative future.

Karijini Mirlimirli Noel Olive, 1997 Survival for Aboriginal people of the West Pilbara has demanded an unrelenting struggle against domination by mainstream society and their marginalisation by the welfare state. They take pride in their successes, and are optimistic of their future and in their own strength of purpose to build that future. We should all welcome and acknowledge the Karijinis' struggle as a genuine contribution to a reconciliation process which is to be founded on the existence of genuine equality for all.
