**Scaled for Success** Philip Hayward,2018-07-26 “This wonderful book asks us to consider the mermaid . . . across regions, nations, diasporas, and contemporary socio-cultural configurations.” —Paige West, Claire Tow Professor of Anthropology, Barnard College, Columbia University Emerging from the confluence of Greco-Roman mythology and regional folklore, the mermaid has been an enduring motif in Western culture since the medieval period. It has also been disseminated more widely, initially through Western trade and colonization and, more recently, through the increasing globalization of media products and outlets. Scaled for Success offers the first detailed overview of the mermaid’s dispersal outside Europe. Complementing previous studies of the interrelationship between the mermaid and Mami Wata spirit in West Africa, this volume addresses the mermaid’s presence in a range of Middle Eastern, Asian, Australian, Latin American and North American contexts. Individual chapters identify the manner in which the mermaid has been variously syncretized and/or resignified in contexts as diverse as Indian public statuary, Thai cinema and Coney Islands annual Mermaid Parade. Rather than lingering as a relic of a bygone age, the mermaid emerges as a versatile, dynamic and, above all, polyvalent figure. Her prominence exemplifies the manner in which contemporary media-lore has extended the currency of established folkloric figures in new and often surprising ways. Analyzing aspects of religious symbolism, visual art, literature and contemporary popular culture, this copiously illustrated volume profiles an intriguing and highly diverse phenomenon. “No matter the reader’s background (literature, folklore, media or cultural studies, and beyond), there is no denying that this work will be a valuable addition to the library of anyone fascinated with mermaids.” —Western Folklore

Women Street Photographers Gulnara Samoilova, 2021-03-02 With a rising number of women throughout the world picking up their cameras and capturing their surroundings, this book explores the work of 100 women and the experiences behind their greatest images. Traditionally a male-dominated field, street photography is increasingly becoming the domain of women. This fantastic collection of images reflects that shift, showcasing 100 contemporary women street photographers working around the world today, accompanied by personal statements about their work. Various joyful, unsettling and unexpected, the photographs capture a wide range of extraordinary moments. The volume is curated by Gulnara Samoilova, founder of the Women Street Photographers project: a website, social media platform and annual exhibition. Photographer Melissa Breyer's introductory essay explores how the genre has intersected with gender throughout history, looking at how cultural changes in gender roles have overlapped with technological developments in the camera to allow key historical figures to emerge. Her text is complemented by a foreword by renowned photojournalist Ami Vitale, whose career as a war photographer and, later, global travels with National Geographic have allowed a unique insight into the realities of working as a woman photographer in different countries. In turns intimate and candid, the photographs featured in this book offer a kaleidoscopic glimpse of what happens when women across the world are behind the camera.

Without Sin Spencer Klaw, 1994-10-01 Without Sin chronicles the rise and fall of nineteenth-century America's most successful experiment in Utopian living: New York's Oneida Community (1848-1880). Founded by the charismatic Christian Perfectionist John Humphrey Noyes, this remarkable society flourished for more than thirty years as a unique world where property was shared, men and women were equals, sex was free and open, work was to be joyous, and pleasure was felt to be the very business that God set Adam and Eve about.

*Cult of the Dead Cow* Joseph Menn, 2020-06-02 The shocking untold story of the elite secret society of hackers fighting to protect our privacy, our freedom -- even democracy itself *Cult of the Dead Cow* is the tale of the oldest, most respected, and most famous American hacking group of all time. Though until now it has remained mostly anonymous, its members invented the concept of hacktivism, released the top tool for testing password security, and created what was for years the best technique for controlling computers from afar, forcing giant companies to work harder to protect customers. They contributed to the development of Tor, the most important privacy tool on the net, and helped build cyberweapons that advanced US security without injuring anyone. With its origins in the earliest days of the Internet, the cDc is full of oddball characters -- activists, artists, even future politicians. Many of these hackers have become top executives and advisors walking the corridors of power in Washington and Silicon Valley. The most famous is former Texas Congressman and current presidential candidate Beto O'Rourke, whose time in the cDc set him up to found a tech business, launch an alternative publication in El Paso, and make long-shot bets on unconventional campaigns. Today, the group and its followers are battling electoral misinformation, making personal data safer, and battling to keep technology a force for good instead of for surveillance and oppression. *Cult of the Dead Cow* shows how governments, corporations, and criminals came to hold immense power over individuals and how we can fight back against them.

**Female Voices from an Ewe Dance-drumming Community in Ghana** James M. Burns, 2009 James Burns provides a detailed ethnography of a group of female musicians from the Dzigbordi community dance-drumming club from the rural town of Dzodze, located in South-Eastern Ghana. and performances and detailed collaborative analyses of song texts, dance routines and performance practice to address important methodological shifts in ethnomusicology that outline a more humanistic perspective of music cultures. The book will appeal to those interested in African Studies, Gender Studies and Oral Literature, as well as ethnomusicology and includes a DVD documentary.

*Our Black Year* Maggie Anderson, 2012-02-14 On January 1, 2009, Maggie and John Anderson, a successful African American couple raising two daughters in a Chicago suburb, engaged in a social experiment to reinvest in the black community and buy from only black-owned businesses for a year. Throughout that time the Andersons combed Chicago in

search of a black-owned supermarket, dry cleaner, gas station, pharmacy, and clothing store. Our black year is the story of what they learned. Maggie examines the commercial exploitation of black neighborhoods through the lens of her year supporting black-owned businesses. She discovers that black businesses lag behind businesses of all other racial and ethnic groups in every measure of success, and argues that the social crises that disproportionately impact black people and underserved black neighborhoods could be countered through conscious consumerism--supporting businesses that empower struggling communities. At once a personal journey and an investigation into the causes of a persistent economic suffering, this is a hard-hitting call to action to close a gaping hole in the American economy--one purchase at a time--From publisher description.

*The Last Lifeline* Jane Nannono, 2012-03-01 A middle-aged, independent, has it-all woman survives a nearly fatal road traffic accident in March 2004. She finds healing in the most unlikely place, the Physiotherapy department of a local hospital, through simple people doing simple acts of kindness. As the physical landscape changes from winter to spring, she slowly renews herself from deep within while desperately clinging to her most prized possession: her independence.

The cookbook discusses the ecological dimension of food production, together with issues concerning nutrition and special diets. Gaia's Kitchen offers a full repertoire of soups, main courses, salads, desserts, breads, cakes, and biscuits. *Twitter and Tear Gas* Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their

long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Preferring Christ Norvene Vest, 2004-10-01 A modern approach to spiritual deepening using the ancient, but wise Rule of St. Benedict. The Rule of St. Benedict continues to attract those who seek to live a deeper life, connected to Christ. But with such an ancient text, how can we authentically engage St. Benedict's Rule in a manner that is true to its profound insights—and to our own spiritual journey? Norvene Vest suggests that the answer lies in the way we read the Rule. "It shouldn't be studied like a book of regulations, or a school textbook. It should be read as *lectio divina*." This profound yet very practical volume speaks to our urgent spiritual need. People yearn for an interior life deeply rooted in God, humanly balanced, and substantially founded in the Christian heritage. Vest offers a valuable resource by rendering much more accessible the spiritual wealth of the key text of the ancient Benedictine charism. Here is the solid, balanced wisdom that has nourished and guided innumerable Christians for nearly fifteen centuries.

**The Existentialist Moment** Patrick Baert, 2015-08-20 Choice Outstanding Academic Title for 2015 Jean-Paul Sartre is often seen as the quintessential public intellectual, but this was not always the case. Until the mid-1940s he was not so well-known, even in France. Then suddenly, in a very short period of time, Sartre became an intellectual celebrity. How can we explain this remarkable transformation? The Existentialist Moment retraces Sartre's career and provides a compelling new explanation of his meteoric rise to fame. Baert takes the reader back to the confusing and traumatic period of the Second World War and its immediate aftermath and shows how the unique political and intellectual landscape in France at this time helped to propel Sartre and existentialist philosophy to the fore. The book also explores why, from the early 1960s onwards, in France and elsewhere, the interest in Sartre and existentialism eventually waned. The Existentialist Moment ends with a bold new theory for the study of intellectuals and a provocative challenge to the widespread belief that the public intellectual is a species now on the brink of extinction.

Locking Up Our Own James Forman, Jr., 2017-04-18 In recent years, America's criminal justice system has become the subject of an increasingly urgent debate. Critics have assailed the rise of mass incarceration, emphasizing its disproportionate impact on people of color. As James Forman, Jr., points out, however, the war on crime that began in the 1970s was supported by many African American leaders in the nation's urban centers. In *Locking Up Our Own*, he seeks to understand why. Forman shows us that the first substantial cohort of black mayors, judges, and police chiefs took office amid a surge in crime and drug addiction. Many prominent black officials, including Washington, D.C. mayor Marion Barry and

federal prosecutor Eric Holder, feared that the gains of the civil rights movement were being undermined by lawlessness—and thus embraced tough-on-crime measures, including longer sentences and aggressive police tactics. In the face of skyrocketing murder rates and the proliferation of open-air drug markets, they believed they had no choice. But the policies they adopted would have devastating consequences for residents of poor black neighborhoods. A former D.C. public defender, Forman tells riveting stories of politicians, community activists, police officers, defendants, and crime victims. He writes with compassion about individuals trapped in terrible dilemmas—from the men and women he represented in court to officials struggling to respond to a public safety emergency. *Locking Up Our Own* enriches our understanding of why our society became so punitive and offers important lessons to anyone concerned about the future of race and the criminal justice system in this country.

*21 Lessons for the 21st Century* Yuval Noah Harari, 2019-01-29 #1 NEW YORK TIMES BESTSELLER • In *Sapiens*, he explored our past. In *Homo Deus*, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. "Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century."—Bill Gates, *The New York Times Book Review* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's *21 Lessons for the 21st Century* is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, *21 Lessons for the 21st Century* is essential reading. "If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's *21 Lessons for the 21st Century* would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: 'What is

happening in the world today, and what is the deep meaning of these events?”—BookPage (top pick)
