The View from Flyover Country Sarah Kendzior, 2018-04-17 NEW YORK TIMES and MIBA BESTSELLER From the St. Louis-based journalist often credited with first predicting Donald Trump's presidential victory. A collection of sharp-edged, humanistic pieces about the American heartland...Passionate pieces that repeatedly assail the inability of many to empathize and to humanize. — Kirkus In 2015, Sarah Kendzior collected the essays she reported for Al Jazeera and published them as *The View from Flyover Country*, which became an ebook bestseller and garnered praise from readers around the world. Now, *The View from Flyover Country* is being released in print with an updated introduction and epilogue that reflect on the ways that the Trump presidency was the certain result of the realities first captured in Kendzior's essays. A clear-eyed account of the realities of life in America's overlooked heartland, *The View from Flyover Country* is a piercing critique of the labor exploitation, race relations, gentrification, media bias, and other aspects of the post-employment economy that gave rise to a president who rules like an autocrat. *The View from Flyover Country* is necessary reading for anyone who believes that the only way for America to fix its problems is to first discuss them with honesty and compassion. "Please put everything aside and try to get ahold of Sarah Kendzior's collected essays, *The View from Flyover Country*. I have rarely come across writing that is as urgent and beautifully expressed. What makes Kendzior's writing so truly important is [that] it . . . documents where the problem lies, by somebody who lives there."—*The Wire* "Sarah Kendzior is as harsh and tenacious a critic of the Trump administration as you'll find. She isn't some new kid on the political block or a controversy machine. . . . Rather she is a widely published journalist and anthropologist who has spent much of her life studying authoritarianism." —*Columbia Tribune*

This Is Not an Atlas kollektiv orangotango,2018-11-30 This Is Not an Atlas gathers more than 40 counter-cartographies from all over the world. This collection shows how maps are created and transformed as a part of political struggle, for critical research or in art and education: from indigenous territories in the Amazon to the anti-eviction movement in San Francisco; from defending commons in Mexico to mapping refugee camps with balloons in Lebanon; from slums in Nairobi to squats in Berlin; from supporting communities in the Philippines to reporting sexual harassment in Cairo. This Is Not an Atlas seeks to inspire, to document the underrepresented, and to be a useful companion when becoming a counter-cartographer yourself.

Economic Convergence in the Euro Area: Coming Together or Drifting Apart? Mr.Jeffrey R. Franks,Ms.Bergljot B Barkbu,Mr.Rodolphe Blavy,William Oman,Hanni Schoelermann,2018-01-23 We examine economic convergence among euro area countries on multiple dimensions. While there was nominal convergence of inflation and interest rates, real convergence of per capita income levels has not occurred among the original euro area members since the advent of the common currency. Income convergence stagnated in the early years of the common currency and has reversed in the wake of the global economic crisis. New euro area members, in contrast, have seen real income convergence. Business cycles became more synchronized, but the amplitude of those cycles diverged. Financial cycles showed a similar pattern: synchronizing more over time, but with divergent amplitudes. Income convergence requires reforms boosting productivity growth in lagging countries, while cyclical and financial convergence can be enhanced by measures to improve national and euro area fiscal policies, together with steps to deepen the single market.

Comrades Marathon - The Ultimate Human Race John Cameron-Dow, 2012-09-27 It is the world's largest and oldest ultramarathon race. It is a festival celebrating the triumph of human spirit over adversity. It has a camaraderie that enables ordinary mortals to overcome human fragility and perform beyond their wildest expectations. In the words of Comrades marvel Bruce Fordyce, this race 'can inspire ordinary people to do extraordinary things, and it brings out the best in all of us. This race has a power to transform, to inspire and to motivate unlike any other'. The official Comrades Marathon: The Ultimate Human Race begins in 1921 and chronologically describes every race in detail, up to 2010's commemorative 85th event. All the legends are here, in their full Comrades glory and human frailty: Arthur Newton, Hardy Ballington, Wally Hayward, Jackie Mekler, Alan Robb, Frith van der Merwe, Bruce Fordyce, and others. But there is also deeply affectionate and admiring coverage of the backmarkers, the ones often called 'the real Comrades runners' - those 'ordinary people' behind the front-runners. This meticulously researched account will certainly inspire all types of athletes, but more than that, it will evoke a sense of wonder at what body and mind can achieve in pursuit of extreme challenge. The heartbreaking and heart-stopping moments are documented alongside the countless successes and triumphs, as well as a rich collection of humorous and quirky anecdotes from Comrades lore. An updated history of the Comrades Marathon is long overdue, and author John Cameron-Dow is uniquely qualified to write about this remarkable athletic event: he holds a prized green number - mark of a ten-time Comrades medallist.

The Edifice Complex Deyan Sudjic, 2006-11-28 A provocative look at architecture-exceptionally intelligent and original (Jonathan Yardley, The Washington Post Book World) Deyan Sudjic-probably the most influential figure in architecture you've never heard of - argues that architecture, far from being auteur art, must be understood as a naked expression of power. From the grandiose projects of Stalin and Hitler to the theme park excess of today's presidential libraries, Sudjic goes behind the scenes of history's great manipulators of building propaganda-and exposes Rem Koolhaas, Frank Gehry, and other architects in a disturbing new light. This controversial book is essential reading for all those interested in the power of architecture-or the architecture of power. * A Washington Post Book World Best Book of the Year

Object-Oriented Cartography Tania Rossetto, 2019-05-16 Object-Oriented Cartography provides an innovative perspective on the changing nature of maps and cartographic study. Through a renewed theoretical reading of contemporary cartography, this book acknowledges the shifted interest from cartographic representation to mapping practice and proposes an alternative consideration of the 'thingness' of maps. Rather than asking how maps map onto reality, it explores the possibilities of a speculative-realist map theory by bringing cartographic objects to the foreground. Through a pragmatic perspective, this book focuses on both digital and nondigital maps and establishes an unprecedented dialogue between the field of map studies and object-oriented ontology. This dialogue is carried out through a series of reflections and case studies involving aesthetics and technology, ethnography and image theory, and narrative and photography. Proposing methods to further develop this kind of cartographic research, this book will be invaluable reading for researchers and graduate students in the fields of Cartography and Geohumanities.

Overview of Buddhist Tantra Bsod-nams-grags-pa (Paṇ-chen), Martin J. Boord, 1996 The overview of Buddhists Tantra, subtitled General Presentation of the Classes of Tantra, Captivating the Minds of the Fortunate Ones, is a scholarly exposition of the framework of Tantric practice presented by its author, Panchen Sonam Dragpa, in a methodical and accessible manner. The Six Perfections Lama Zopa Rinpoche, 2021-12-07 A practical and actionable guide to the six perfections, a backbone of the Buddhist path, by an internationally beloved teacher. The six perfections are the actions of the bodhisattvas—holy beings who have transcended selfless concerns. But they're also skills we can and should develop right now, in our messy, ordinary lives. In this clear, comprehensive guide to the backbone of Mahayana Buddhist practice, Lama Zopa Rinpoche walks us through each of the six perfections: -charity -morality -patience -perseverance -concentration -wisdom As he carefully describes each perfection, he not only reveals the depth of its meaning and how it intertwines with each other

perfection, but he also explains how to practice it fully in our everyday lives—offering concrete ways for us to be more generous, more patient, more wise. With the guidance he gives us, we can progress in our practice of the perfections until we, like the bodhisattvas, learn to cherish others above ourselves.
