A Long Way Gone Ishmael Beah, 2007-02-13 My new friends have begun to suspect I haven't told them the full story of my life. "Why did you leave Sierra Leone?" "Because there is a war." "You mean, you saw people running around with guns and shooting each other?" "Yes, all the time." "Cool." I smile a little. "You should tell us about it sometime." "Yes, sometime." This is how wars are fought now: by children, hopped-up on drugs and wielding AK-47s. Children have become soldiers of choice. In the more than fifty conflicts going on worldwide, it is estimated that there are some 300,000 child soldiers. Ishmael Beah used to be one of them. What is war like through the eyes of a child soldier? How does one become a killer? How does one stop? Child soldiers have been profiled by journalists, and novelists have struggled to imagine their lives. But until now, there has not been a first-person account from someone who came through this hell and survived. In *A Long Way Gone*, Beah, now twenty-five years old, tells a riveting story: how at the age of twelve, he fled attacking rebels and wandered a land rendered unrecognizable by violence. By thirteen, he'd been picked up by the government army, and Beah, at heart a gentle boy, found that he was capable of truly terrible acts. This is a rare and mesmerizing account, told with real literary force and heartbreaking honesty.

Introduction to Information Retrieval Christopher D. Manning, Prabhakar Raghavan, Hinrich Schütze, 2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

Too Much Loss: Coping with Grief Overload Alan Wolfelt, 2020-09-01 Grief overload is what you feel when you experience too many significant losses all at once, in a relatively short period of time, or cumulatively. In addition to the

deaths of loved ones, such losses can also include divorce, estrangement, illness, relocation, job changes, and more. Our minds and hearts have enough trouble coping with a single loss, so when the losses pile up, the grief often seems especially chaotic and defeating. The good news is that through intentional, active mourning, you can and will find your way back to hope and healing. This compassionate guide will show you how.

Curtsies & Conspiracies Gail Carriger, 2013-11-05 Does one need four fully grown foxgloves for decorating a dinner table for six guests? Or is it six foxgloves to kill four fully grown guests? Sophronia's first year at Mademoiselle Geraldine's Finishing Academy for Young Ladies of Quality has certainly been rousing! For one thing, finishing school is training her to be a spy (won't Mumsy be surprised?). Furthermore, Sophronia got mixed up in an intrigue over a stolen device and had a cheese pie thrown at her in a most horrid display of poor manners. Now, as she sneaks around the dirigible school, eavesdropping on the teachers' quarters and making clandestine climbs to the ship's boiler room, she learns that there may be more to a field trip to London than is apparent at first. A conspiracy is afoot--one with dire implications for both supernaturals and humans. Sophronia must rely on her training to discover who is behind the dangerous plot and survive the London Season with a full dance card. In this bestselling sequel to New York Times bestselling *Etiquette & Espionage*, class is back in session with more petticoats and poison, tea trays and treason. Gail's distinctive voice, signature humor, and lush steampunk setting are sure to be the height of fashion this season.

Awdry, 2013-07-23 Thomas' Big Book of Beginner Books offers the following Thomas & Friends backlist favorites: *Stop, Train, Stop!*; *A Crack in the Track*; *Go, Train, Go!*; *Blue Train*, *Green Train*; *Trains, Cranes & Troublesome Trucks*; and *Fast Train, Slow Train*. Grit Angela Duckworth, 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak

performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

On Intersectionality Kimberle Crenshaw, 2019-09-03 A major publishing event, the collected writings of the groundbreaking scholar who first coined intersectionality as a political framework (Salon) For more than twenty years, scholars, activists, educators, and lawyers--inside and outside of the United States--have employed the concept of intersectionality both to describe problems of inequality and to fashion concrete solutions. In particular, as the Washington Post reported recently, the term has been used by social activists as both a rallying cry for more expansive progressive movements and a chastisement for their limitations. Drawing on black feminist and critical legal theory, Kimberlé Crenshaw developed the concept of intersectionality, a term she coined to speak to the multiple social forces, social identities, and ideological instruments through which power and disadvantage are expressed and legitimized. In this comprehensive and accessible introduction to Crenshaw's work, readers will find key essays and articles that have defined the concept of intersectionality, collected together for the first time. The book includes a sweeping new introduction by Crenshaw as well as prefaces that contextualize each of the chapters. For anyone interested in movement politics and advocacy, or in racial justice and gender equity, *On Intersectionality* will be compulsory reading from one of the most brilliant theorists of our time.

Shallow Graves Maureen Boyle, 2017-09-05 Eleven women went missing over the spring and summer of 1988 in New Bedford, Massachusetts, an old fishing port known as the Whaling City, where Moby Dick, Frederick Douglass, textile mills, and heroin-dealing represent just a few of the many threads in the community's diverse fabric. In *Shallow Graves*, investigative reporter Maureen Boyle tells the story of a case that has haunted New England for thirty years. The Crimes:

The skeletal remains of nine of the women, aged nineteen to thirty-six, were discovered near highways around New Bedford. Some had clearly been strangled, others were so badly decomposed that police were left to guess how they had died. The Victims: All the missing women had led troubled lives of drug addiction, prostitution, and domestic violence, including Nancy Paiva, whose sister was a hard-working employee of the City of New Bedford, and Debra Greenlaw DeMello, who came from a solidly middle-class family but fell into drugs and abusive relationships. In a bizarre twist, Paiva's clothes were found near DeMello's body. The Investigators: Massachusetts state troopers Maryann Dill and Jose Gonsalves were the two constants in a complex cast of city, county, and state cops and prosecutors. They knew the victims, the suspects, and the drug-and-crime-riddled streets of New Bedford. They were present at the beginning of the case and they stayed to the bitter end. The Suspects: Kenneth Ponte, a New Bedford attorney and deputy sheriff with an appetite for drugs and prostitutes, landed in the investigative crosshairs from the start. He was indicted by a grand jury in the murder of one of the victims, but those charges were later dropped. Anthony DeGrazia was a loner who appeared to fit the classic serial-killer profile: horrific childhood abuse, charming, charismatic, but prone to bursts of violence. He hunted prostitutes in the city by night and served at a Catholic church by day. Which of these two was the real killer? Or was it someone else entirely? Maureen Boyle first broke the story in 1988 and stayed with it for decades. In *Shallow Graves* she spins a riveting narrative about the crimes, the victims, the hunt for the killers, and the search for justice, all played out against the backdrop of an increasingly impoverished community beset by drugs and crime. Drawing on more than one hundred interviews, along with police reports, first-person accounts, and field reporting both during the killings and more recently, *Shallow Graves* brings the reader behind the scenes of the investigation, onto the streets of the city, and into the homes of the families still hoping for answers.

Autonomous Horizons Greg Zacharias, 2019-04-05 Dr. Greg Zacharias, former Chief Scientist of the United States Air Force (2015-18), explores next steps in autonomous systems (AS) development, fielding, and training. Rapid advances in AS development and artificial intelligence (AI) research will change how we think about machines, whether they are individual vehicle platforms or networked enterprises. The payoff will be considerable, affording the US military significant protection for aviators, greater effectiveness in employment, and unlimited opportunities for novel and disruptive concepts of operations. *Autonomous Horizons: The Way Forward* identifies issues and makes recommendations for the Air Force to take full advantage of this transformational technology.

The Peel Sessions Ken Garner, 2010-12-15 This is a story of teenage dreams, which, as any Peel fan knows, are hard to

beat. Between 1967 and 2004 John Peel picked over 2000 bands to come and record over 4000 sessions to be played on his radio show. Many were young and had never been in a recording studio before, for some it was the start of an illustrious career, for others it was the only recognition their musical talent ever got. For over 35 years the cream of British musical talent made the journey to the BBC's studio in Maida Vale, from Pink Floyd to Pulp, the Small Faces to the Smiths. And because John Peel was so respected his sessions took on a legendary status - they were a rite of passage that every new band wanted to go through. Unfettered by commercial pressure the Peel Sessions were a unique British institution - an archive of music that reflects one man's passion for finding and encouraging new music. Includes a full sessionography listing songs, band members and broadcast dates. Jarvis Cocker writing about his first Peel Session aged 18 (Wayne the drummer was 15): 'We travelled down to Maida Vale in a van driven by a very strange man we'd contacted via a card pinned to the Virgin record shop noticeboard. We'd had to borrow lots of equipment from a band called The Naughtiest Girl Was a Monitor 'cause we didn't have enough stuff of our own. The session was to be produced by Dale Griffin, who used to be the drummer in Mott the Hoople; I seem to remember that he was wearing cowboy boots. I think the crisis point came when Wayne was attempting to get a home-made synth-drum to work that a friend of his at school had made out of a rubber burglar-alarm mat and an old electronic calculator - Dale Griffin looked at this 15-year-old kid crouching on the floor bashing what looked like a doormat with some wires coming out of it and just put his head in his hands. But to his credit, the session did get finished and after it, everything else started for me...'
