Traced Nathaniel Jeanson, 2022-03-01 What happened to the ancient Egyptians? The Persians? The Romans? The Mayans? ARE WE THEIR DESCENDANTS? Recent genetic discoveries are uncovering surprising links between us and the peoples of old—links that rewrite race, ethnicity, and human history. Today's Native Americans descend from Central Asians who arrived in the early A.D. era. Abraham, Isaac, and Jacob still have clearly identifiable descendants, albeit rare ones. Every people group on earth can genetically trace their origins to Noah and his three sons.

India-Vietnam Relations Reena Marwah, Lê Thị Hằng Nga, 2022-01-04 This book provides an in-depth analysis of the close cultural links between India and Vietnam. It discusses the issues of trade negotiations under the Regional Comprehensive Economic Partnership (RCEP) and the Indo-Pacific construct. Issues such as strengthening the economic partnership, contemporary development challenges posed by the COVID-19 pandemic, including weakening supply chains, and geo-

strategic tensions are explored in this book. It enriches understanding of the potential of the two countries to develop as manufacturing hubs for the region and beyond. Given the more aggressive posturing by China in 2020, the concluding chapter includes the policy prescriptions with a futuristic vision, for India and Vietnam to catalyze their strategic and bilateral partnership. Well researched and analytical, the book draws extensively from several interviews of experts, diplomats, journalists, businesspersons, and members of the diaspora. It is a must read for students, researchers, think tanks, area study centers, and all institutions engaged in Asian studies, encompassing narratives extending from the developmental to political, from the bilateral to the multilateral and from the geo-economic to the geo-strategic.
