Structures in Space Bernard Abrams, Michael Stecker, 2012-12-06 Much is yet to be discovered about the fascinating large-scale structures of the universe. Bernard Abrams, former Director of the Deep-Sky section of the British Astronomical Association and Michael Stecker, a celebrated California-based astronomical photographer, explain what we currently know of the near and far universe and present some of the most spectacular astronomical photographs ever taken. The accompanying CD-ROM offers a veritable explosion of hundreds of beautiful color images that illustrate local and distant structures and galaxies.

Oral History Lee Smith, 2011-12-06 The best novel so far by a writer whose growth has been steady and sure . . . [Oral History] tells the story of the Cantrell family and the odd curse that its members believe to have hung over them. It is a tale that begins in the late 19th century with Granny Younger, the midwife, and continues well into the 20th century through several generations of Cantrells; it is also a tale deeply rooted in the folk culture of the Appalachians, a tale that in the best tradition of folklore contains 'story upon story.' -- The Washington Post Book World A novel as dark, winding, complicated as the hill country itself. . . You could make comparisons to Faulkner and Carson McCullers, to *The Sound and the Fury*, *As I Lay Dying*, and *Wuthering Heights*. You could employ all those familiar ringing terms of praise: 'rare,' 'brilliant,' 'unforgettable.' But Lee Smith and *Oral History* make you wish all those phrases were fresh and new, that all those comparisons had never before been made. For this is a novel deserving of unique praise. -- The Village Voice Deft and assured . . . She is clearly drunk on the language of Appalachia, on its stories and its people . . . She is nothing less than masterly. -- The New York Times Book Review

Nonsense Dan Goggin, 1986 The show is a fund raiser put on by the Little Sisters of Hoboken to raise money to bury sisters accidentally poisoned by the convent cook, Sister Julia (Child of God). -- Publisher's description.

The Eloquent Lay Reader Cindy Telisak, 2019-11-24 This work is both useful and beautiful-readers will find the 'how to' instructions immediately useful to improve their reading; and beautiful, as Telisak invites readers into the joy, delight, and holiness of Scripture with her engaging style. I can't wait to get this work into the hands and lives of the readers of Scripture at the parish I serve! The Rev. Theron Walker, Rector, Emmaus Anglican Church, Castle Rock, CO *The Eloquent Lay Reader*

is an encouraging manual for people whose ministry it is to read the scriptures aloud in their liturgical worship services. Most lay readers love their job but lack either the public speaking skills or the biblical knowledge to make the strongest impact. This book provides a streamlined process and critical reference material so the lay reader can both understand God's word and deliver it skillfully. In this book, we'll focus on two main objectives: understanding the text and delivering the text. We'll outline ways to simply analyze a passage for basic understanding and we'll go over basic presentation skills. That's the job in a nutshell. Conquer (or at least improve) these two areas and you'll be a confident lay reader and a blessing to your congregation.

I/O Configuration Using z/OS HCD and HCM Karan Singh, Preben Esbensen, Peter Hoyle, Mark Pope, Jean Sylvester, IBM Redbooks, 2010-05-18 IBM® System z® servers offer a full range of connectivity options for attaching peripheral or internal devices for input and output to the server. At the other end of these connections are a variety of devices for data storage, printing, terminal I/O, and network routing. This combination of connectivity and hardware offer System z customers solutions to meet most connectivity requirements. However, to make use of these features, the System z server must be properly configured. This IBM Redbooks® publication takes a high-level look at the tools and processes involved in configuring a System z server. We provide an introduction to the System z channel subsystem and the terminology frequently used in the hardware definition process. We examine the features and functions of tools used in the hardware definition process, such as HCD, CHPID Mapping Tool, and HCM. We discuss the input and output of these tools (IODF, IOCP, IOCDS) and their relationship to one another. We also provide a high-level overview of the hardware configuration process (the flow of generating a valid I/O configuration). We provide configuration examples using both HCD and HCM. The book also discusses available new functions and guidelines for the effective use of HCD and HCM. This document is intended for system programmers and administrators who are responsible for defining and activating hardware changes to z/OS® and System z servers, and for the IBM representatives who need this information. General knowledge of z/OS and IOCP is assumed.

The Revisioners Margaret Wilkerson Sexton, 2020-08-18 This New York Times Book Review Notable Book of the Year from the author of the Reese Witherspoon Book Club pick, *On the Rooftop*, is a powerful tale of racial tensions across generations (People) that explores the depths of women's relationships—influential women and marginalized women, healers, and survivors. In 1924, Josephine is the proud owner of a thriving farm. As a child, she channeled otherworldly power to free herself from slavery. Now her new neighbor, a white woman named Charlotte, seeks her company, and an uneasy friendship grows between them. But Charlotte has also sought solace in the Ku Klux Klan, a relationship that jeopardizes Josephine's

family. Nearly one hundred years later, Josephine's descendant, Ava, is a single mother who has just lost her job. She moves in with her white grandmother, Martha, a wealthy but lonely woman who pays Ava to be her companion. But Martha's behavior soon becomes erratic, then threatening, and Ava must escape before her story and Josephine's converge. The Revisioners explores the depths of women's relationships—powerful women and marginalized women, healers and survivors. It is a novel about the bonds between mothers and their children, the dangers that upend those bonds. At its core, The Revisioners ponders generational legacies, the endurance of hope, and the undying promise of freedom. [A] stunning new novel . . . Sexton's writing is clear and uncluttered, the dialogue authentic, with all the cadences of real speech . . . This is a novel about the women, the mothers. —The New York Times Book Review

Make This Town Big Michael Romalis, Tim O'Bryhim, 2016-05-10 It was an improbable story. From 1979 to 1992, world-class soccer players from England, Denmark, Argentina, Wales, Ireland, and beyond, made their way to Kansas, of all places, to play for the Major Indoor Soccer League's Wichita Wings. The first major league professional sports team in Kansas history, the Wings would heat up the cold, winter nights in a jam-packed and raucous Kansas Coliseum. Competing against the likes of New York, Los Angeles, Dallas, and Chicago, plucky Wichita would become a yearly playoff contender and one of the league's most successful franchises. None of it would have been possible without a working-class boy from Liverpool, England named Roy Turner. A star for the North American Soccer League's Dallas Tornado in the 1970s, Coach Turner would convert the men, women, and children of Wichita into an army of orange-clad soccer fans dedicated to making their town bigger than it ever had been before.

PoC or GTFO Manul Laphroaig, 2017-10-31 This highly anticipated print collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELF's are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

Community Impact Assessment ,1996 This guide was written as a quick primer for transportation professionals and analysts who assess the impacts of proposed transportation actions on communities. It outlines the community impact assessment process, highlights critical areas that must be examined, identifies basic tools and information sources, and stimulates the thought-process related to individual projects. In the past, the consequences of transportation investments on communities have often been ignored or introduced near the end of a planning process, reducing them to reactive considerations at best. The goals of this primer are to increase awareness of the effects of transportation actions on the human environment and emphasize that community impacts deserve serious attention in project planning and development-attention comparable to that given the natural environment. Finally, this guide is intended to provide some tips for facilitating public involvement in the decision making process.

Yokohama Station SF Yuba Isukari,Tatsuyuki Tanaka,2021-03-30 A WORLD INSIDE All Hiroto has ever known is a life on a tiny coastal speck of Japan. Much of the country has been swallowed by Yokohama Station, a mysterious, ever-growing series of buildings that's been around for as long as anyone can remember. The few who live outside its many entrances have never seen Inside and know only rumors and legends of the station's interior. That all changes when Hiroto is given an 18 Ticket, a mysterious item that lets him enter the massive complex for five days. The young man has always sought a purpose, but the one he finds may not be the sort he'd hoped for...

Precalculus Robert F. Blitzer,2014 Bob Blitzer has inspired thousands of students with his engaging approach to mathematics, making this beloved series the #1 in the market. Blitzer draws on his unique background in mathematics and behavioral science to present the full scope of mathematics with vivid applications in real-life situations. Students stay engaged because Blitzer often uses pop-culture and up-to-date references to connect math to students' lives, showing that their world is profoundly mathematical.
