Virginia Woolf's Garden Caroline Zoob,2013-11-01 This chronological account takes you through the key events in the lives of Virginia and Leonard Woolf through a history of their home, Monk's House in Sussex, where Virginia wrote most of her major novels. The story of this magical garden includes selected quotations from the writings of the Woolfs which reveal how important a role the garden played in their lives, as a source of both pleasure and inspiration. Bought by them in 1919 as a country retreat, Monk's House was somewhere they came to read, write and work in the garden. Virginia wrote first in a converted tool shed, and later in her purpose-built wooden writing lodge tucked into a corner of the orchard. Enriched with rare archive images and embroidered garden plans, the book takes the reader on a journey through the various garden 'rooms', (including the Italian Garden, the Fishpond Garden, the Millstone Terrace and the Walled Garden), each presented in the context of the lives of the Woolfs, with fascinating glimpses into their daily routines at Rodmell.

Murder Suey Gideon Jacobs,Brad Phillips,2021-07-30 Over the course of 2020, Gideon Jacobs and Brad Phillips wrote a 12-chapter serial novella. Written exquisite-corpse style, they alternated writing each chapter and didn't have access to previous chapters until they had been published online.

Atget John Szarkowski,2003 This volume presents the essence of the work of the great French photographer Eugène Atget through one hundred carefully selected photographs. Atget devoted more than thirty years of his life to the task of documenting the city of Paris and the surrounding countryside, and in the process created an oeuvre that brilliantly explains the great richness, complexity, and authentic character of his native culture. John Szarkowski, an acknowledged master of the art of looking at photographs, explores the unique sensibilities that made Atget one of the greatest artists of the twentieth century and a vital influence on the development of modern and contemporary photography. The eloquent introductory text and commentaries on Atget's photographs form an extended essay on the remarkable visual intelligence displayed in these subtle, sometimes enigmatic pictures.

Classic Keys Alan S. Lenhoff,David E. Robertson,2019-12-09 Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the

Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. *Classic Keys* explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

Paris on Air Oliver Gee, 2020-05-13 Join award-winning podcaster Oliver Gee on this laugh-out-loud journey through the streets of Paris. He tells of how five years in France have taught him how to order cheese, make a Parisian person smile, and convince anyone you can fake French (even if, like Oliver, you speak the language like an Australian cow). A fresh voice on the Paris scene, he shares the soaring highs and crushing lows that come with following your dreams to the French capital. He also befriends the city's too-cool-for-school basketballers, chases runaway crocodiles, and goes on a mammoth honeymoon trip around France on his little red scooter.

Cripple Creek Days Mabel Barbee Lee, 1984-01-01 Mabel Barbee Lee has written a rousing tale of early days in Cripple Creek, Colorado. She speaks with authority because she arrived there as a child in 1892, and with wide-eyed wonder saw the whole place turn to gold. With his divining rod, Mabel's father tapped gold ore on Beacon Hill but missed becoming a

millionaire by selling his claim short. Nonetheless, life was rich for young Mabel in a booming town with points of interest like Poverty Gulch, the Continental Hotel, and a fantastic house called Finn's Folly; with characters around like the promoter Windy Joe and (seen from a distance) the madam Pearl De Vere; with something always going on, whether a celebration or a disastrous fire or train wreck or a no-nonsense miners' strike. Mabel Lee's book brings back a time and place with affection. The foreword is by Lowell Thomas, who was her pupil when she was a young schoolmarm in Cripple Creek. One of the most fascinating accounts of a gold rush town.-Chicago Sunday Tribune. More entertaining by far than the run of fictional westerns, more authentic, of course, and a great deal more moving.-W. M. Teller, Saturday Review

It also provides hints for remembering many rigging formulas. Stage Rigging Handbook Jay O. Glerum, 1997 Succinct and jargon free, Stage Rigging Handbook remains the only book in any language that covers the design, operation, and maintenance of stage rigging equipment. It is written in an at-a-glance outline form, yet contains in-depth information available nowhere else. This second edition includes two new parts: the first, and expanded discussion of the forces and loads on stage rigging components and the structure supporting them; the second, an examination of block and tackle rigging. The remaining four parts contain numerous revisions. Explaining his purpose, Jay O. Glerum points out that four main principles make up the core of this book: know the rigging system; know that it is in safe working order; know how to use it; keep your concentration. Glerum applies these principles to all of the major types of stage rigging systems, including block and tackle, hemp, counterweight, and motorized. He describes each type of rigging, then thoroughly reviews the operating procedures and ways of inspecting existing systems.

Canal Cruising in France Michael Walsh, 2015-03-15 Throughout France is a vast network of canals and navigable rivers that lead through a wondrous variety of pastoral settings, medieval towns and villages and vibrant cities. Along the way are vestiges of human habitation spanning the millennia from palaeolithic times onward through a complex history of settlement. The occupation and taming of the land followed the courses of the rivers and crossed the low passes that link them to each other. The canals were built to aid commerce here in the seventeenth, eighteenth and nineteenth centuries and much of the original engineering is still in place. The coming of rail and then motorized road transport made them increasingly uneconomical and their use dramatically declined. They are now mostly left to the pleasure cruisers. Following these ancient routes along the peaceful canals and rivers of France is a superb way to experience the heart and soul of the country. This is a dream shared by many, and it is now easily possible with a rental boat. This book will introduce you to the cruising regions, to the boat rental companies and to the basic skills and knowledge you need to safely and confidently head off on your own voyage of discovery through the cultures, histories, foods and wines of France.

Primates in Fragments Laura K. Marsh, Colin A. Chapman, 2013-09-07 This book is number two in a series for Primates in Fragments. In this volume, ten years after the first <http://www.springer.com/social+sciences/anthropology+%26+archaeology/book/978-0-306-47696-9>, we continue to address issues regarding primates within a fractured landscape. There are seven sections based on specific categories of primates in fragments. In the Introductory section, authors discuss the issues surrounding primates in remnant habitats as well as encourage discussion about what we mean by fragmentation on a landscape scale. In the Long-Term and Regional Studies section, authors present information on changes that have occurred during longer studies as well as changes that have occurred over regions. In the Landscape, Metapopulations and the Matrix section, authors cover topics from dry to moist forests, and from metapopulations to single species use of multiple fragments locations. In Feeding and Behavioral Ecology, authors take a closer look at the flexibility and responsiveness of primates in fragments in terms of their food choices, resource use, and behavioral changes. In Endemic, Endangered, and Nocturnal Primates authors uncover details involving critical primates living in major city centers to the heights of the Himalayas. In Genetics, Disease and Parasites authors cover topics including population viability, disease and parasite transmission between primates in fragments and humans. Finally, in the Conservation and Ecology: Threats and Management section, we synthesize information in this volume and make recommendations for the future of work in this field and the survivability of primates in fragments.

The Coat Project ,2019-11-09 This series of portraits, made over the course of 2 months, depicts 72 people wearing and interacting with the same vintage Dior trench coat. I shot each using the same background and lighting, windows in my studio, to focus in on the subject's interaction with the coat. My hope is that the viewer will learn something about the person in each portrait, whether it shows them as playfully timid, brazen and bold, or thoughtful as they have a moment hidden under the fabric.
