## **The Use of Colour in Mediterranean Cultures**

The French Book Henri-Jean Martin, 1996-07-26 The book as the subject of a distinct historical discipline dates from the landmark publication of *L'Apparition du livre* by Lucien Febvre and Henri-Jean Martin in 1958. In this further contribution to his pathbreaking work with Febvre, eminent French historian Henri-Jean Martin explores the role of the book and book industry in early modern France. Martin begins with a sweeping look at the revolutionary role played by the new technology of printing in Europe of the Renaissance and Reformation. Shifting the focus to France, he then examines the political implications of publishing in the reign of Francis I, including such topics as the founding of royal and university libraries, the role of church-state relations, Richelieu's cultural program, and censorship. In revealing case studies of Rouen and Grenoble, Martin pinpoints precisely which books were sold and to which social groups, and explains why the initially successful printers of Rouen were eventually forced out of business by the Parisian courts. Martin also casts a discerning eye on early graphic design—from the first illustrated coffee table books purchased by the newly rich to the invention of the paragraph to facilitate reading. And he shows how attempts by the French government to suppress and control publication were eventually thwarted by free market forces from Amsterdam and Neufchatel. This is a book that will be of interest to those who study the history of the book, intellectual history of early modern Europe, and the relation between politics and ideas.

Kamilah Vega is desperate to convince her family to update their Puerto Rican restaurant and enter it into the Fall Foodie Tour. With the gentrification of their Chicago neighborhood, it's the only way to save the place. The fly in her mofongo—her blackmailing abuelo says if she wants to change anything in his restaurant, she'll have to marry the one man she can't stand: his best friend's grandson. Liam Kane spent a decade working to turn his family's distillery into a contender. But just as he and his grandfather are on the verge of winning a national competition, Granda hits him with a one-two punch: he has cancer and has his heart set on seeing Liam married before it's too late. And Granda knows

just the girl...Kamilah Vega. If they refuse, their grandfathers will sell the building that houses both their businesses. With their futures on the line, Kamilah and Liam plan to outfox the devious duo, faking an engagement until they both get what they want. *Metrologia Vol. 1* Rodrigo P. B. Costa-Félix,Américo Bernardes, A ausência de bibliografia básica em português nas áreas de metrologia e avaliação da conformidade é um consenso na comunidade científica e tecnológica. Existem poucos textos compreensivos que podem ser base para o ensino nessas áreas, bem como servir de apoio aos técnicos nas diversas áreas produtivas. E isso prejudica a formação de nossos profissionais. Essa carência, detectada nas “Diretrizes Estratégicas para a Metrologia Brasileira”, compromete a qualidade de nossos produtos, é desfavorável para o cidadão e o meio ambiente e diminui nossa competitividade. Este livro, primeiro volume de uma trilogia, foi organizado com a intenção de preencher uma

lacuna na literatura técnica em Metrologia. O primeiro volume cobre 15 assuntos de interesse de profissionais da indústria, de professores e estudantes de diversos níveis, além de profissionais liberais e consultores. É dedicado aos fundamentos da Metrologia. Nele são abordados os seguintes temas: história da metrologia, sistema internacional de unidades (SI), vocabulário internacional de metrologia (VIM), incerteza de medição, validação de métodos de medição, materiais de referência, ensino de metrologia no Brasil, estrutura e organização da metrologia nacional e internacional, metrologia legal, avaliação da conformidade e as demais ferramentas de tecnologia industrial básica (TIB). Foram envolvidos mais de 45 profissionais na realização desse projeto, incluindo organizadores, autores e revisores técnicos. Espera-se que seja dada uma necessária contribuição a melhor educação e formação de nossos profissionais, gestores e empresários, garantindo melhores condições para nosso desenvolvimento econômico e social.

**Michelangelo and the Pope's Ceiling** Ross King,2014-10-14 From the acclaimed author of Brunelleschi's Dome and Leonardo and the Last Supper, the riveting story of how Michelangelo, against all odds, created the masterpiece that has ever since adorned the ceiling of the Sistine Chapel. In 1508, despite strong advice to the contrary, the powerful Pope Julius II commissioned Michelangelo Buonarroti to paint the ceiling of the newly restored Sistine Chapel in Rome. Despite having completed his masterful statue David four years earlier, he had little experience as a painter, even less working in the delicate medium of fresco, and none with challenging curved surfaces such as the Sistine ceiling's vaults. The temperamental Michelangelo was himself reluctant: He stormed away from Rome, incurring Julius's wrath, before he was eventually persuaded to begin. Michelangelo and the Pope's Ceiling recounts the fascinating story of the four extraordinary years he spent laboring over the twelve thousand square feet of the vast ceiling, while war and the power politics and personal rivalries that abounded in Rome swirled around him. A panorama of illustrious figures intersected during this time-the brilliant young painter Raphael, with whom Michelangelo formed a rivalry; the fiery preacher Girolamo Savonarola and the great Dutch scholar Desiderius Erasmus; a youthful Martin Luther, who made his only trip to Rome at this time and was disgusted by the corruption all around him. Ross King blends these figures into a magnificent tapestry of day-to-day life on the ingenious Sistine scaffolding and outside in the upheaval of early-sixteenth-century Italy, while also offering uncommon insight into the connection between art and history.
