*Global Dexterity* Andy Molinsky, 2013-02-19 "I wrote this book because I believe that there is a serious gap in what has been written and communicated about cross-cultural management and what people actually struggle with on the ground."—From the Introduction What does it mean to be a global worker and a true "citizen of the world" today? It goes beyond merely acknowledging cultural differences. In reality, it means you are able to adapt your behavior to conform to new cultural contexts without losing your authentic self in the process. Not only is this difficult, it's a frightening prospect for most people and something completely outside their comfort zone. But managing and communicating with people from other cultures is an essential skill today. Most of us collaborate with teams across borders and cultures on a regular basis, whether we spend our time in the office or out on the road. What's needed now is a critical new skill, something author Andy Molinsky calls global dexterity. In this book Molinsky offers the tools needed to simultaneously adapt behavior to new cultural contexts while staying authentic and grounded in your own natural style. Based on more than a decade of research, teaching, and consulting with managers and executives around the world, this book reveals an approach to adapting while feeling comfortable—an essential skill that enables you to switch behaviors and overcome the emotional and psychological challenges of doing so. From identifying and overcoming challenges to integrating what you learn into your everyday

environment, Molinsky provides a guidebook—and mentoring—to raise your confidence and your profile. Practical, engaging, and refreshing, Global Dexterity will help you reach across cultures—and succeed in today's global business environment.

**Air Supplied** Cameron Bishop, Martin Patrick, Phillip Adams, Cindy Baker, Mike Ting, Christopher Braddock, Abby Cunneane, Renae Shaedler, Paul Gazzola, Rebecca Dean, Blair French, John Hurrell, Margaret Farmer, 2016-11-05 *Air Supplied* examines the work of Australian-based artist David Cross. Known for his practice with inflatable structures, the work often draws audiences into unexpected situations and dialogues. Working across performance/participatory art and object-based environments, Cross, has developed a unique body of work that focuses on relationships between pleasure, the grotesque and phobia. His curious architectural structures often resembling children's fun houses draw participants into physically and psychologically complex scenarios. While often large in scale, these structures at the same time create a framework around which ideas of intimacy and haptic experience can be negotiated and challenged. Since 2011 Cross has begun to work increasingly in the public sphere developing works that navigate the relationship between sport, collective decision making and sensory deprivation. Capturing work since 2005 produced in Europe, Eastern Europe, North America, and Australasia, the text features a survey essay by New Zealand-based academic Dr Martin Patrick, an interview with the artist and eleven commissioned essays on each of the artworks.

*Shades of White* Fifi O'Neill, 2021-10-12 *Shades of White* is a pure celebration of all the brilliant white hues, and how they work in harmony with different textures inside the home. Whether your style is rustic, modern, romantic, vintage or classic, Fifi O'Neill will show you that there is a perfect shade of white for you. With beautiful commissioned photography, Fifi showcases twelve dazzling homes that have mastered using shades of white throughout. From fresh to cosy, sophisticated to shabby chic, white is classy, adaptable and timeless. *Shades of White* showcases interior inspiration for using white in any setting, pairing the infinite shades with different textures such as wood and metal, or even with other colours, to create stylish and stunning interiors.

*Parallel Views* Joshua Mack, 2014 In the decades following World War II, both Japan and Italy were rebuilding after the ravages of war, constructing democratic political systems after a period of fascism and transforming into economic powerhouses, all of which profoundly influenced their respective cultures. Artists in both nations were working in these similar conditions, examining their formidable artistic traditions and seeking a new path forward in the wake of modernism - ways of making art objects that had never been made before. 'Parallel Views' presents a breadth of postwar masters of Italian

and Japanese art.

**The Wired Soul** Tricia McCary Rhodes, 2016-07-01 If you had time to slow down, you'd notice: You're more easily distracted lately. You forget the details of your life more often than you used to. You get easily agitated and have trouble resting, even though you're more tired than you remember ever being. Even your spiritual life is not immune: You struggle to pray, to read the Scriptures, to be still and know that God is God. Welcome to now. Our technology has greatly improved much of our lives, but in the process our brains are being rewired on a daily basis, and our capacity to be centered in our souls, in our lives, is at risk. Brain scientists are aware of this unprecedented change, but the solutions aren't found in science: They're found in the ancient practices of the faith. Tricia McCary Rhodes reintroduces us to the classic disciplines of Scripture reading, meditation, prayer, and contemplation, not just as technologies to aid our faith but as tools to keep us focused and mindful in an increasingly disorienting digital age.

London's 'Golden Mile' Manolo Guerri, 2021-10-22 A reconstruction of the 'Strand palaces', where England's early-modern and post-Reformation elites jostled to build and furnish new, secular cathedrals This book reconstructs the so-called Strand palaces--eleven great houses that once stood along the Strand in London. Between 1550 and 1650, this was the capital's Golden Mile home to a unique concentration of patrons and artists, and where England's early-modern and post-Reformation elites jostled to establish themselves by building and furnishing new, secular cathedrals. Their inventive, eclectic, and yet carefully-crafted mix of vernacular and continental features not only shaped some of the greatest country houses of the day, but also the image of English power on the world stage. It also gave rise to a distinctly English style, which was to become the symbol of a unique architectural period. The product of almost two decades of research, and benefitting from close archival investigation, this book brings together an incredible array of unpublished sources that sheds new light on one of the most important chapters in London's architectural history, and on English architecture more broadly.

**Georgia POW Camps in World War II** Dr. Kathryn Roe Coker & Jason Wetzel, 2019 During World War II, many

Georgians witnessed the enemy in their backyards. More than twelve thousand German and Italian prisoners captured in far-off battlefields were sent to POW camps in Georgia. With large base camps located from Camp Wheeler in Macon and Camp Stewart in Savannah to smaller camps throughout the state, prisoner reeducation and work programs evoked different reactions to the enemy. There was even a POW work detail of forty German soldiers at Augusta National Golf Course, which was changed from a temporary cow pasture to the splendid golf course we know today. Join author and historian Dr. Kathryn Roe Coker and coauthor Jason Wetzel as they explore the daily lives of POWs in Georgia and the lasting impact they had on the Peach State.

**Into the Mountain** Charlotte Peacock,2018-09-20 In the 1930s, the writer and poet, Nan Shepherd was one of North-East Scotland's best known literati. Her image now graces the new Scottish £5 note; *The Living Mountain* has become a classic and sells in its thousands. Nan Shepherd lived all her life in Deeside, yet few people, even in Scotland, seem to have heard of her. But then, indifferent to celebrity, Nan Shepherd had a talent for silence. Long overdue, this first biography, unravels some of the mysteries, dispels some of the rumours and gives insight into the life and work of this perceptive and intensely private woman.

**Pushing Back the Ocean** Karl Bimshas,2007-11 This short journey begins along a wintry and desolate Cape Cod beach where you'll discover how to push back the ocean by discovering the magic of goals. Next you'll learn how to think like a champion and help others find their own passion. Finally, you'll realize how easy - and necessary, it is to change a piece of the world.

*In the Cairngorms* Nan Shepherd,2019-03-10 Hill-walking was Shepherd's great love; her single collection of poetry, 'In the Cairngorms', expresses an intensity of deep kinship with nature. They are poems written with the perception of one who has climbed the mountains and truly knows them.

**Touchy Subjects** Steve Capellini,2012-12-06 Full of quirky characters that populate a profession most of us know little about, *Touchy Subjects* is a behind-the-scenes look at the lives of those who make their living touching others. In this tell-all memoir, Steve Capellini, author of *Massage for Dummies* and other mainstream massage titles, yanks the draping sheet aside

and comes clean about the temptations and transgressions that have marked his own career. Then he embarks upon a far-flung adventure seeking the true meaning of human touch. From a Madison Avenue boardroom to a gross anatomy lab; from the deck of a private yacht to a seedy Asian massage parlor, the author uncovers stories that others haven't told: sex stories, prostitution stories, adultery stories and stories about a modern massage slave trade that ensnares hundreds of thousands of young women, many of them in the U.S., some of them working right in your home town. The author tangles with a Trinidadian rapist, a nymphomaniac ex-Playboy bunny, an impotent sea captain and an overweight multimillionaire ukulele player. Through each of these stories, he gradually guides the reader toward the underlying Truth of massage, debunking myths along the way and getting to the heart of what it's all about-touching people. The stories are interspersed with cutting-edge research on the science of touch, evolutionary biology and the grooming habits of some of our closet primate relatives, the bonobos. The author's quest to get to the bottom of touch takes him to a clothing optional hot springs resort in Northern California, a meditation retreat in the Virgin Islands, an ashram in the Berkshire mountains, behind the wheel of a Maserati on the back roads of Arizona and finally to Kathmandu Nepal where he meets a man who has risked everything-his health, his money and years of his life-on a quixotic mission to train untouchables to become massage therapists. It is there, among some of the world's most impoverished and oppressed people, that the true meaning of massage is revealed. Doing massage is a profession unlike any other, filled with flamboyant practitioners of all stripes. Touchy Subjects features them all, in a circus side show of chapters such as Nudity, Impotence, Adultery, Homosexuality, Cellulite and Disney World. Throughout each passage, Capellini seeks to answer important questions: Is it possible to touch dead people? What's it like to massage a horny guru? And what percentage of women have seduced their masseurs? Hint: it's high. This is a raucous, irreverent, insightful and, in the end, touching story about what it means to touch people, from someone who has, quite literally, touched thousands.
