Shortly after getting married, Merissa Alink and her husband found themselves with nothing in their pantry but a package of spaghetti and some breadcrumbs. Their life had seemingly hit rock bottom, and it was only after a touching act of charity that they were able to get back on their feet again. Inspired by this gesture of kindness as well as the beloved Little House on the Prairie books, Merissa was determined to live an entirely made-from-scratch life, and as a result, she rescued her household budget—saving thousands of dollars a year. Now, she reveals the powerful and moving lessons she’s learned after years of homesteading, homemaking, and cooking from scratch. Filled with charm, practical advice, and gorgeous full-color photographs, Merissa shares everything from tips on budgeting to natural, easy-to-make recipes for taco seasoning mix, sunscreen, lemon poppy hand scrub, furniture polish, and much more. Inviting and charming, Little House Living is the epitome of heartland warmth and prairie inspiration.

**Astra** Naomi Foyle,2014-02-06 Is-land is a Gaian paradise in the middle of a blasted world - but its success comes at a dark price. Like every child in Is-Land, all Astra Ordott has ever wanted is to get her Security Shot, do her National Service and defend her Gaian homeland from Non-Lander 'infiltrators'. But when one of her Shelter mothers, the formidable Dr Hokma Blessner, tells her the shot will limit her chances of becoming a scientist and offers her an alternative, Astra agrees to her plan. Then the orphaned Lil arrives to share Astra's home and Astra is torn between jealousy and fascination. Lil's father taught her some alarming ideas about Is-Land and the world, but when she pushes Astra too far, the heartache that results goes far beyond the loss of a friend. If she is to survive, Astra must learn to deal with devastating truths about Is-Land, Non-Land and the secret web of adult relationships that surrounds her . . . or her actions could bring the whole community toppling down.

**Chew on This...** Blanche D. Grube, Anita Vazquez-Tibau, 2022-02-09 CHEW ON THIS BUT DON'T SWALLOW A must-read before your next dental visit! Exposing the truth about common dental procedures: It's not what you have been told... Did you know that whole-body health, begins in your mouth? Many common dental procedures such as dental mercury amalgams, metal crowns, root canals, implants, and even braces, have been found to be a causative factor in many diseases that people around the globe are facing today, including cancer. CHEW ON THIS - BUT DON'T SWALLOW, was written not only for the layperson but also for any health care professional, who is interested in getting to the root cause of a disease, rather than just treating symptoms. After Dr. Blanche D. Grube, had been trained by and worked with, Dr. Hal Huggins (Renowned Author, of It's All In Your Head) for decades, they developed the Huggins-Grube Protocol, which includes doing a Full Dental Revision. A Full Dental Revision is done by removing all toxic materials and replacing them, with biocompatible materials to restore the mouth, as holistically as possible. This is explained in great detail, and why the removal of mercury dental amalgam, is just the beginning. Dr. Blanche has taken all of her 40 plus years of research, continuing education, and clinical practice to share what she has learned, and observed about these conventional dental procedures, including the safe, the harmful, and the outright dangerous! From her personal experiences to actual case studies, to peer-reviewed scientific research, CHEW ON THIS - BUT DON'T SWALLOW, truly is, a must-read before your next dental visit.

**Unjustifiable Means** Mark Fallon, 2017-10-24 The book the government doesn't want you to read. President Trump wants to bring back torture. This is why he's wrong. In his more than thirty years as an NCIS special agent and counterintelligence officer, Mark Fallon has investigated some of the most significant terrorist operations in US history, including the first bombing of the World Trade Center and the 2000 attack on the USS Cole. He knew well how to bring criminals to justice, all the while upholding the Constitution. But in the aftermath of September 11, 2001, it was clear that America was dealing with a new kind of enemy. Soon after the attacks, Fallon was named Deputy Commander of the newly formed Criminal Investigation Task Force (CITF), created to probe the al-Qaeda terrorist network and bring suspected terrorists to trial. Fallon was determined to do the job the right way, but with the opening of Guantanamo Bay and the arrival of its detainees, he witnessed a shadowy dark side of the intelligence community that emerged, peddling a snake-oil they called "enhanced interrogation techniques." In Unjustifiable Means, Fallon reveals this dark side of the United States government, which threw our own laws and international covenants aside to become a nation that tortured—sanctioned by the highest-ranking members of the Bush Administration, the Army, and the CIA, many of whom still hold government positions, although none have been held accountable. Until now. Follow along as Fallon pieces together how this shadowy group incrementally—and secretly—loosened the reins on interrogation techniques at Gitmo and later, Abu-Ghraib, and black

sites around the world. He recounts how key psychologists disturbingly violated human rights and adopted harsh practices to fit the Bush administration's objectives even though such tactics proved ineffective, counterproductive, and damaging to our own national security. Fallon untangles the powerful decisions the administration's legal team—the Bush “War Counsel”—used to provide the cover needed to make torture the modus operandi of the United States government. As Fallon says, “You could clearly see it coming, you could wave your arms and yell, but there wasn't a damn thing you could do to stop it.” *Unjustifiable Means* is hard-hitting, raw, and explosive, and forces the spotlight back on to how America lost its way. Fallon also exposes those responsible for using torture under the guise of national security, as well as those heroes who risked it all to oppose the program. By casting a defining light on one of America's darkest periods, Mark Fallon weaves a cautionary tale for those who wield the power to reinstate torture.

This is the riveting first-person account of the treacherous top-secret mission inside Afghanistan to set the stage for the defeat of the Taliban and launch the war on terror. As thrilling as any novel, *First In* is a uniquely intimate look at a mission that began the U.S. retaliation against terrorism--and reclaimed the country of Afghanistan for its people.

**The Experience of Nothingness** Maharaj Nisargadatta,Robert Powell,1996 In 'The Experience of Nothingness', Sri Nisargadatta Maharaj shows that spirituality and logic do not have to oppose one another. A master of the Tantric Nath lineage, Nisargadatta has attained knowledge of the Infinite, though he also has a family and participates in daily routine. Written with subtle strength and wisdom, Nisargadatta possesses the ability to communicate what it means and how to attain true freedom from suffering and pain. Perhaps most revealing is the author's quiet and effective assertion that logic is necessary and should be a goal for any spiritual seeker.

Radical Unionism in the Midwest, 1900-1950 Rosemary Feurer,2006 In *Radical Unionism in the Midwest, 1900-1950* Rosemary Feurer examines the fierce battles between Midwestern electrical workers and bitterly anti-union electrical and metal industry companies during the 1930s and 40s. Organized as District 8 of the United Electrical, Radio, and Machine Workers (UE) and led by open Communist William Sentner, workers developed a style of unionism designed to confront corporate power and to be a force for social transformation in their community and nation. Feurer studies District 8 through a long lens, establishing early twentieth century contexts for these conflicts. Exploring the role of radicals in local movement formation, Feurer argues for a civic unionism that could connect community and union concerns to build solidarity and contest the political economy. District 8's spirited unionism included plant occupations in St. Louis and Iowa, campaigns to democratize economic planning, and local strategies for national bargaining that were depicted as a Communist conspiracy by a corporate influenced Congressional committee in Evansville, Indiana. District 8 was destroyed through reactionary networks and the anti-Communist backlash of the mid-twentieth century, but Feurer argues that its history tells another side of the labor movement's formation in the 1930s and 40s, and can inform current struggles against corporate power in the modern global economy. **Against Labor** Rosemary Feurer,Chad Pearson,2017-03-21 *Against Labor* highlights the tenacious efforts by employers to organize themselves as a class to contest labor. Ranging across a spectrum of understudied issues, essayists explore

employer anti-labor strategies and offer incisive portraits of people and organizations that aggressively opposed unions. Other contributors examine the anti-labor movement against a backdrop of larger forces, such as the intersection of race and ethnicity with anti-labor activity, and anti-unionism in the context of neoliberalism. Timely and revealing, *Against Labor* deepens our understanding of management history and employer activism and their metamorphic effects on workplace and society. Contributors: Michael Dennis, Elizabeth Esch, Rosemary Feurer, Dolores E. Janiewski, Thomas A. Klug, Chad Pearson, Peter Rachleff, David Roediger, Howard Stanger, and Robert Woodrum.
