Teaching about Religion in the Social Studies Classroom Charles C. Haynes, 2019

Teaching Critical Religious Studies Jenna Gray-Hildenbrand, Beverley McGuire, Hussein Rashid, 2022-08-11 Are you teaching religious studies in the best way possible? Do you inadvertently offer simplistic understandings of religion to undergraduate students, only to then unpick them at advanced levels? This book presents case studies of teaching methods that integrate student learning, classroom experiences, and disciplinary critiques. It shows how critiques of the scholarship of religious studies—including but not limited to the World Religions paradigm, Christian normativity, Orientalism, colonialism, race, gender, sexuality, and class—can be effectively integrated into all courses, especially at an introductory level. Integrating advanced critiques from religious studies into actual pedagogical practices, this book offers ways for scholars to rethink their courses to be more reflective of the state of the field. This is essential reading for all scholars in religious studies.

The Promised City Moses Rischin, 1977 Rischin paints a vivid picture of Jewish life in New York at the turn of the century. Here are the old neighborhoods and crowded tenements, the Rester Street markets, the sweatshops, the birth of Yiddish theatre in America, and the founding of important Jewish newspapers and labor movements. The book describes, too, the city's response to this great influx of immigrants—a response that marked the beginning of a new concept of social responsibility.

Religious Worlds William E. Paden, 2015-10-27 From Gods, to ritual observance to the language of myth and the distinction between the sacred and the profane, Religious Worlds explores the structures common to all spiritual traditions. From the Trade Paperback edition.
