**Art of Intuitive Photography** Mindy Veissid, 2016-05-03 Photography is often expected to be thought based and technically perfect. Art of Intuitive Photography is the opposite. Written for beginners and pros alike, this book guides the reader to pay attention to feelings, be mindful of the present moment, and experience rather than do photography. Mindy Vissids approach is thoughtful, compassionate, light, and playful. With specific tools and exercises, she will guide you to tap into your intuition to find your true self and your own voice. The knowledge and self-confidence you will gain from reading this book can be applied not only to photography, but at work, in relationships, and with your health. Its a must read for anyone who wants to improve their photography and their life. Art of Intuitive Photography is a wonderful guide for learning to trust your intuition and making photographs from your heart. This book will help you take the leap from generic photos to images that spring from imagination and personal experience with courage and grace. Douglas Beasley, Fine Art Photographer and Founder/Director, Vision Quest Photo Workshops

**On the Roof** Josh Katz, 2021-11-23 This view of a life-altering moment in our history—captured from one photographer's Brooklyn rooftop—is a testament to human hope and resilience, and what we've learned about living in community. The roof of a New York apartment building, like some New York neighbors, can be elusive—you could live there for years and never see it. The unique constraints of 2020's quarantine drove photographer and Brooklyn transplant Josh Katz up to his Bushwick rooftop and introduced him to both. What he discovered there astonished him. Families, lovers, dogs, meditators, artists, exercise fanatics, daredevils, drinkers, dancers—in this strange time the world below had found a way to continue ticking on up above, subject to new patterns and distances. And then, there were the pigeon fanciers, who had been up there for decades, watching the neighborhood change around them. Josh reached for his camera. The project grew from a man's attempt to cope with his own isolation to a tender portrait of his community—captured entirely from his own roof—and a

resonant chronicle of how some of us found new hope and space in a life-altering year. Characters as heartfelt as any in the now-classic *Humans of New York* accompany Josh's keen observations on urban space, human interaction, and new ways of city living we can bring down from the roof to apply in a post-quarantine world.

*New York City 2020* Mindy Veissid, 2021-06-04 NYC 2020 A Year Like No Other is a photo book documenting the city throughout the year 2020. Containing 90+ images, the viewer will get insight to what the city looked and felt like during Covid-19, Black Lives Matter and the Presidential Election. Locations photographed include Times Square, Central Park, Financial District, SOHO, Washington Square Park, Staten Island Ferry, Coney Island and Brooklyn.

Perfect Strangers: New York City Street Photographs (Signed Edition) , 2020-10-27 Over the last seven years, Melissa O'Shaughnessy has photographed daily on the streets of New York. As one of a growing number of women street photographers contributing to this dynamic genre, O'Shaughnessy enters the territory with clarity and a distinctly humanist eye, offering a refreshing addition to the tradition of street photography. Through her curious and quirky vision, we witness the play of human activity on the glittering sidewalks of the city. Woven into her cast of characters are the lonely, the soulful, and the proud. She has fallen for them all--perfect strangers.

**South Bronx Rising** Jill Jonnes, 2022-10-04 Thirty-five years after this landmark of urban history first captured the rise, fall, and rebirth of a once-thriving New York City borough—ravaged in the 1970s and '80s by disinvestment and fires, then heroically revived and rebuilt in the 1990s by community activists—Jill Jonnes returns to chronicle the ongoing revival of the South Bronx. Though now globally renowned as the birthplace of hip-hop, the South Bronx remains America's poorest urban congressional district. In this new edition, we meet the present generation of activists who are transforming their communities with the arts and greening, notably the restoration of the Bronx River. For better or worse, real estate investors have noticed, setting off new gentrification struggles.

New York Gregory Peterson, 2022-02 Mid-March 2020: native New Yorker Gregory Peterson is on an early evening walk through the city, suddenly shut down by the coronavirus pandemic. Manhattan's grand public spaces are bare. The monumental Lincoln Center Plaza is empty. The sounds of skates on ice and bustle of tourists and workers at Rockefeller Center are absent. Not a soul on Easter Sunday at the Cathedral of Saint John the Divine. Starkly silent, the city is stilled, as no one had ever seen it before. Traveling on foot and by bike to avoid public transportation, Peterson took more than 400 photographs of over 200 locations in Manhattan, Brooklyn, and Queens through the spring and summer of 2020. Using his iPhone 11, he captured myriad surreal landmarks--the United Nations Secretariat with no traffic, people, or flags, Grand Central Terminal without a person or even a car in sight, as well as gelled neighborhood streets, churches, shops, and other tourist destinations. Without people, these photos reveal the city's primeval soul. They unveil a serene beauty most often obscured by the frenzy of our fast-paced lives. We see New York with new eyes. The first reaction to Gregory Peterson's poised, chilled shots of New York City is: Must be trick photography. He's Photoshopped the people out--or else a sunny daylight in--in what must have been shots from the dead of night. But no: This is the capital of the world in lockdown. One has to go to de Chirico's imaginary metaphysical paintings of Italian cities to find such radical depopulation. --David Cohen, editor, Artcritical.com During the height of the lockdown, Peterson also captures the city's response to swelling Black Lives Matter protests that shook the world after the killing of George Floyd. For the first time in living memory, midtown Manhattan and other areas were boarded up following Memorial Day due to fears of civil unrest as, documented in the chapter Plywood New York. *New York: Stilled Life* is a comprehensive record of a unique, vanished moment; a memento of a time we all endured and how it changed us and our cities--perhaps forever.

*Historic Photos of Newark* Sharon Hazard, Elizabeth Hazard, 2009 Founded in 1666 along the Passaic River by Puritans arriving from the New Haven colony farther east, Newark emerged in the nineteenth century at the forefront of industry and commerce. Benefiting from the Morris Canal, leather tanneries, breweries, banking, insurance, and other enterprises, the city attracted the best and the brightest, among them patent leather inventor Seth Boyden, voltmeter inventor Edward Weston, and a young Thomas Edison, who established a manufacturing plant in the city for his improved telegraph. *Historic Photos of Newark* is a pictorial journey through time that traces the story of this great American city, from the early days of photography in the 1860s to the postwar era immediately following World War II. Reproduced in vivid black-and-white, nearly 200 photographs, each one captioned and with introductions, offer unforgettable vignettes of the city and its citizens as Newark navigated good times and bad over these defining and monumental decades.
