Adam and the Experts Victor Bumbalo, 1990 At the height of the AIDS crisis, Adam searches for answers, comfort, and a new place for sexuality as he witnesses the decline and inevitable loss of his beloved best friend. Victor Bumbalo's ADAM AND THE EXPERTS may be the most important play to deal with the AIDS crisis in gay society since William Hoffman's AS IS and Larry Kramer's THE NORMAL HEART sounded their anguished alarms four and a half years ago. Since those two dramas were first produced Off-Broadway, thousands have died, and thousands more who have gotten AIDS fight to survive. Mr Bumbalo's play expresses a mood of exhaustion, fatalism and embattled determination that, as the decimation continues,

has become an overshadowing fact of homosexual life. It has, at least, become possible, Mr Bumbalo's play suggests, to find some bitter humor amid the tragedy. ADAM AND THE EXPERTS is quite funny in a dry satiric way. Most of the humor is situational, deployed by the playwright to reveal the pathetic, ludicrous defenses that people adopt to shield themselves from terrifying realities ... -Stephen Holden, The New York Times

Italian American Reconciliation John Patrick Shanley, 1989 THE STORY: Huey Maximilian Bonfigliano has a problem: While he is safely divorced from his shrewish first wife, Janice, who shot his dog and even took a bead on him, he feels he cannot regain his manhood until he woos and wins her one more time--i

Italy Revisited Mary Melfi, 2009 Drawing out her mother's childhood memories of life in southern Italy at the dawn of the twentieth century, Mary Melfi takes an unconventional approach to autobiographical writing. Italy Revisited serves as a double memoir, told in dialogue between a mother and a daughter. The conversation takes the reader to a medieval town high up in the mountains where time is told by the shadow the sun casts, where wheat and olive oil are the currency of choice (barter is in use), and where marriage is as much about property as it is about love. As they re-create that vanished world, the pair finds greater understanding of the tumultuous relationships that sometimes exist between immigrant mothers and their children.

Change, the Arrow of Time, and Divine Eternity in Light of Relativity Theory Daniel Saudek, 2020-03-19 This book has two aims; first, to provide a new account of time's arrow in light of relativity theory; second, to explain how God, being eternal, relates to our world, marked as it is by change and time. In part one, Saudek argues that time is not the expansive universal 'wave' that is appears to be, but nor are we living in an unchanging block. Rather, time is real but local: there are infinitely many arrows of time in the universe, each with their own fixed past and open future. This model is based on the ontology of substances which can exist in different states, marked by different properties. On this basis, a derivation of temporal precedence and of the asymmetry between the fixed past and the open future is provided. Time's arrow is thus 'attached' to substances, and is therefore a local rather than global phenomenon, though by no means an illusory or merely subjective one. In part two, this model is then applied to the perennial questions concerning the relationship between divine eternity and the temporal world: How can my future choices be free if God already knows what I will do? Can God act if He is not in time? Through the lens of relativity theory, such questions are shown to appear in a completely new light. The book combines insights from theoretical physics with ancient and contemporary philosophy into a unique synthesis, broaching a wealth of key issues including the arrow of time, the evolution of the cosmos, and a physics-based defence of eternalism in philosophical theology.
